

**LDEQ ANSWERS TO PROPOSERS QUESTIONS**  
**RFP No. 7225-10-02**  
**“Abandoned Underground Storage Tank site Investigation and Risk**  
**Evaluation—Former Green Auto Sales and Ober Property”**

LDEQ’s answers to the following questions are intended to provide information to potential proposers questions to RFP No. 7225-10-02.

Questions and answers that may potentially result in the disclosure of information from proposals of competing bidders will not be published.

**Question 1:** I just received the attached addendum on the above referenced RFP. It is changing the type of Louisiana State Contractor’s License required from “ ...License with Hazardous Material classification...” to “License with a specialty compatible with UST assessment/remediation activities...”. I am not aware of a contractor’s license with a specialty compatible with UST assessment/remediation. We have the Hazardous Material classification, will that still be acceptable?

**LDEQ’s answer:** The Louisiana Contractors License classification requirement was changed to match the licensing requirements for a Response Action Contractor (RAC). The license classifications that will be accepted are Hazardous Materials or one of the following specialties: Hazardous Materials Cleanup and Removal, Hazardous Materials Site-Remediation, or Hazardous Waste Treatment/Removal.
